TESTIMONIALS OF OUR PRODUCTS

First of all, we thank all our customers very much for their respect and choice. Of course special BIG thanks to the people who has sent us these warm words. These e-mails are really to keep us making our work better.

SoftAmbulance Partition Doctor

Alexander Wolf

I just wanted to thank you guys for creating a great product. I had 10 years worth of files I kept on an external USB external 3.5 HD. Somehow the partition table lost its mind and I was hosed and depressed at the prospect of family photos and other data being lost for good. I went as far as replacing the PCB on the HD, which got the disc running - and your product is recovering the rest. Thank you again.

SoftAmbulance Photo Undelete

Frank Ohly

Thank you folks. You saved the day! We have our friends photos back.

George Chua

Thanks a lot. Finally able to retrieve most of the pictures. A few feedback for your beta version though:

(Here comes the a loong feedback on a new beta version of SoftAmbulance Photo Undelete. Special thanks to George for it.)

But still it is a great program and highly recommendable. Thanks again.

Steve

Hi there, I just want to say i purchased your program because my SD card in my digital camera crashed. I was told that \"It needs to be formatted\" even though i had already a ton of pictures on it. I bought your program and it recovered 100% of the pictures. I just want to say thank you for the easy purchase and the great product.

Ilan Sever

Finally I purchased a new card reader (and dumped the old one in the waste basket...)

With the new reader I did the image, and not only I was able to retrieve all the images, I even found ones that were lost in the previous \"crash\" ...

Your software is the best ROI I ever got ! For \$45 I got my wife to stop blaming me for losing her precious pictures... ;-))

Thanks a lot.

Robert Hartcher

I appreciate the speedie reply Eugene

Your product recovered 250 images and only a couple were unrecoverable - I am quite happy thanks
