SOFTAMBULANCE REFUND POLICY

After purchasing any of SoftAmbulance' products you can refund spent money during one month after software buying. Please, learn closely our refund terms to prevent further problems.

SoftAmbulance recommends following try and buy algorithm:

First download and install trial version of recovery tool. Scan your drives and make sure that necessary files can be viewed by built in program previewer. Then buy license and input registration key to recover your files. If you cannot view necessary files then files are not recoverable.

All refunds are examined individually. We don't give back money by reason of "program doesn't recovers anything" because you have opportunity to try product before buy, using trial version of SoftAmbulance's software. If you have any questions, troubles, need a consultation or advice you are welcome to [contact us](#).

Products packages include distributive file of product, license, help file (optional), our standard support service and a free lifetime upgrade. Product packages don't include box or compact disc.

Your SoftAmbulance team.
